

# FAR 145

## Repair Station Manual Quick Turn Around Service

Blue Tuna has written over 50 repair station manuals for Aerospace companies across the United States.

Blue Tuna includes all of the new revisions. Our manuals and templates are built in accordance with AC 145-9.

Blue Tuna has designed templates for those who want to rewrite their own manuals. We supply the template and supporting materials.

Blue Tuna can also provide you with a turn key service, writing the manual for you.

The manual includes supporting materials required for contracting, maintaining forms, and self evaluation forms. The manual includes quality control and electronic submission capabilities.

Whatever your budget range, Blue Tuna can offer a level of support unsurpassed in this industry.

Blue Tuna offers a full array of services to meet your documentation needs in a cost effective and timely manner.
